

COOL BEAUTIFUL OR
OTHERWISE AMAZING

Gnome Ornament Pattern

See a full tutorial at otherwiseamazing.com.

1. Cut out pattern on black line.
2. Cut pattern out of cardstock or thin cardboard to make a template.
3. Using the cardboard template, cut the gnome cape out of the felt.
4. Starting at the tip of the hat (marked with the *), sew up the gnome's cap using blanket stitch.
5. Once you have sewn up the cap, bring your thread to the inside and tie an overhand knot snug to the felt.
6. Using the dashed line on the pattern as a guide, sew a running stitch through the felt, leaving a tail at least 4 inches long at each end.
7. Make a bean-shaped ball with your wool roving that's a little bigger than your gnome.
8. Stuff the roving into the gnome felt cape.
9. Tie the cape on with a bow. Trim the ends of the string.
10. Make a 3-4 inch loop at the tip of the hat.
13. Hang up your gnome!
